

REMEMBERING SREBRENICA

Peace not revenge

I want to use my words to amplify our message that we want Peace not revenge...

The women and children look on as the survivors – where are their husbands, brothers and sons? we want Peace not revenge...

Our leaders are guilty for remaining silent bystanders while the horrors happened... we want Peace not revenge...

For peace the survivors struggle to come to terms with the genocide – they need peace not revenge

If we stand in solidarity then no one can break us ...we want Peace not revenge...

We need to magnify the messages of peace not revenge

We need amplify the message of peace not revenge to create a world that is democratic and inclusive.

We need peace not revenge ...
